

E.SCAPE LANDSCAPE CONSTRUCTION SOLUTIONS

A RESIDENTIAL RESORT

FAMILY-FRIENDLY ENTERTAINING

For this project, e.Scape Landscape Construction Solutions' director, Eugene Bouchaud collaborated with Tim Sharp from Creative Pools and the team from Morgan & Co Builders, to bring this family's entertainment space to life.

When combined, each element of the outdoor area – the landscaping, pool and alfresco – perfectly complements the home and its surrounds. Phoenix Stone - who specialise in custom large-format natural pavers - supplied blizzard granite pavers, which when combined with a selection of lush plants and quality finishes brings the space to life, and makes e.Scape Landscape Construction Solutions' contribution to the project really stand out.

Featuring Alpine stone retaining walls and a mixture of native and tropical plants, including Australian native grass trees and cycads, the home's garden is an exceptional example of the standards e.Scape Landscape Construction Solutions holds itself to.

Specialising in poolside landscaping and customised garden design, e.Scape Landscape Construction Solutions can also assist with garden irrigation, lighting and decking, as well as pool fencing.

The company services Bayside, Port Phillip and surrounds, and completes every project to exacting standards. Completing approximately 20 projects per year, e.Scape Landscape Construction Solutions established itself as a reputable company since it was founded by Eugene Bouchaud in 2009. Together, the company's directors work hard to ensure a hands-on approach is taken with every project.

With a focus on quality workmanship and excellent service, e.Scape Landscape Construction Solutions goes above and beyond to meet its clients' needs.
